The winter golf season is ending and we are starting our Spring/Summer Golf Season. We've had amazing weather the past few months with limited days of rain and snow allowing comfortable winter golf weather. This winter we were able to maintain the golf course and greens all winter with our new fertilizing program vs. the dormant look in past years. Certainly, weather also played a big part in great course conditions.

The roughs are starting to turn green as the temperatures warm up.

Nick and the Maintenance Crew completed a number of projects this winter in preparation for spring/summer golf. Projects included: Fairway Aerification, widening a number of Fairways, continuing to spray iron fertilizer on the Tee Boxes, Fairways & Greens. Removal of a number of dead Trees on Holes #13, #16, #17, and #18.

Currently working on Hole #7 bunker renovation in which railroad ties have been removed. Redesign of both bunkers includes moving a little closer to the green collars and downsizing the left bunker.

Right Bunker Hole #7

You may have noticed a large Storage Building being installed at the Maintenance Yard, will be storing seed & fertilizer along with other items.

New Storage Building at Maintenance Yard!
